

Power bank 4400 mAh 5 V - 1 A blue

General information

Power bank to connect to two devices, such as smartphones, iPhones, navigation systems, MP3 players, digital cameras and many other devices, and charge them simultaneously. It is a convenient solution during travels, at the office or at home because it charges a USB device without a PC or USB charger.

In addition, it features a powerful LED that works as a torch.

Features

- Lithium-ion battery
- Protection against overcharging, short circuiting & overheating
- No memory effect
- Intelligent power control
- LED light that works as a torch
